Annual Report of the Australian Live Steamers Safety Committee

This report constitutes a summary of business as conducted by the Committee up to late December, 2010, at which time the report had to be submitted for distribution to member clubs in advance of the 2011 AGM of the AALS.

As of the 2010 AGM, the Committee consisted of Warwick Allison, Chairman, and Alf Grigg as secretary. The position of technical representative was not filled.

The Committee fulfilled the normal correspondence tasks of the committee, and undertook a consultation process with all member clubs of the AALS. The specific issues for consultation were further amendments of the codes, investigation and development of guidelines or a code for gas firing of boilers, investigating and enhancing the role of competent persons, and a proposed amendment to the Standing Orders regarding the Technical Representative to the ALSSC.

A consultation document explaining the process and the specific topics was distributed to all AALS member clubs. Submissions were limited in number though valuable in detail and content.

The Committee determined to recommend to the Board the adoption of amendments to the codes, and an amendment to Standing Orders with respect to the position of the Technical Representative to the ALSSC. The gas firing guidelines/code is ongoing into 2011.

The Committee remains committed to fully consulting with member clubs, and to empowering clubs to fully manage the implementation of the Code. The Committee will implement the resolutions of the 2011 AGM, will continue with a consultative process on key safety and operational issues, and will develop a gas-firing component for inclusion in the Code.
